  - Crew: 1
  - Skill: Vehicle blasters
  - Fire Control: 2D
  - Range: 25-50/120/200 meters
  - Damage: 3D

Description: Groundborers were large machines used for creating tunnels manufactured by Akin-Dower. They were used to provide a quick shelter on dangerous worlds. A group of wealthy Naddists purchased several for use in the Freedon Nadd Uprising, where Warb Null attacked the city of Iziz on Onderon using modified versions of the Akin-Dower groundborers. After this attack, they were known as Onderonian War Machines.
