Cost: Unavailable for sale

Availability: 3, X

Difficulty: Difficult

Damage: NA

Game Notes: Used for practice sparring against other Holographic Lightsabers or Training Remotes, and will record successful hits and signal to remotes when they have been hit.

Description: A holographic lightsaber was a type of lightsaber used in Jedi training. It consisted of a larger than average lightsaber hilt projecting a thick yellow blade which the trainee had to deflect in accordance with saberfighting techniques. The holographic saber could record the hits it took during the session and display them for the Jedi Master to judge their trainee's success.
