

Vehicles D6 / RanCorp Vendetta Repulsor Tank

Vendetta Repulsor Tank

The vendetta is the symbol of simplicity in a tank design. It has three sections all mounted on swiveling joints to rotate independent of each other. The lowermost is the drive section which houses thrusters and repulsorlifts. Next is the control deck which houses the crew and a squad of fold up droids. And above that is the weapons platform that houses the gunner, the lone heavy blaster cannon and a colling system that gives the cannon nearly unlimited firing rate. The colling system takes up half of the weapons deck and the other half is the weapon itself, targeting equipment, power generator and the small gunner's station. The recycle rate for the cannon is nearly a millisecond letting the cannon spray a steady stream of fire.
