Creatures D6 / Lava Beetle (Metal Consuming

Name: Lava Beetle
Designation: Non-sentient
Classification: Beetle
Skin color: Dark brown and red
Eye color: Green
Diet: Metal

Dexterity: 2D
Perception: 2D+1
Strength: 2D

Special Abilities

Bite: Lava Beetles have sharp mandibles which allow them to deliver a bite which does Str+1D damage.

Heat Resistant: Due to the environment they live in, Lava Beetles have adapted to high temperatures, and gain a bonus +2D to deal with the effects of heat.

Metal Eaters: Lava Beetles consume metal ores from rocks, or more directly from refined sources like Starships, Vehicles and Droids. When eating/attacking Metal, their damage scales to whatever it is they are eating, causing visible damage with every bite.

Move: 8 (walking), 22 (flying)
Orneriness: 3D

Description: Lava beetles were a species of beetles found on the moon Vrant Tarnum known for eating metal from starships.
