Background: A speeder truck used by the Claro gang of Bandits, it was equipped with a Roll Cage to protect the driver and passengers, and had a large open cargo area at the back. It also towed a separate cargo platform for more cargo space, but this could be removed (increasing it's Manueverability to 0D+1, and speed to 30, 90kmh). It was also malfunctioning and left smoke wherever it went, meaning that tracking it within 20 minutes gained a bonus of 2D.
