Description: Drya Thornne was a humanoid lieutenant of the Bedlam Raiders who was skilled enough to be gifted an orange-bladed lightsaber with retractable crossguards by the Raiders' leader, Rayvis.

Biography

In 9 BBY. Thornne was with Rayvis during his search for Dagan Gera, who they found after his initial defeat against Jedi Knight Cal Kestis. Thornne was among those sent to the facility on the Shattered Moon of Koboh to search for an Abyss compass. While on the station, the lieutenant encountered Cal Kestis in the upper levels of the foundry and attacked him.

Kestis ultimately won the duel and slew Thornne, taking the custom emitter from Thornne's lightsaber and using it to modify his own.

Equipment

Drya Thornne wore a blue outfit with a brown tunic and gray armor over it, along with a helmet that covered their entire head. They also wore a gray helmet and used a wrist blaster, grenades, and a portable cloaking device in combat. Their primary weapon, however, was an orange crossguard lightsaber gifted to them by Rayvis from his personal collection.
