Creatures D6 / Mon Cala Whale-like Creatures

Name: Mon Cala Whale-like Creatures
Skin color: Purple
Eye color: Black
Distinctions: 8 eyes
Point of origin: Mon Cala
Habitat: Ocean

Dexterity: 2D
Perception: 1D
Strength: 4D

Special Abilities

Aquatic: These Whale-like Creatures live in water, they can emerge from the seas of Mon Cala by leaping into the air, but cannot remain on the surface for extended periods.

Crush: These Whale-like Creatures use their bulk to smash targets, doing Str damage by smashing into targets, or on the surface by leaping out of the water and landing on them.

Colossal Size: These Whale-like Creatures are massive creatures equal to Capital Ships in Size and scale, this gives a massive 12D bonus to damage, & damage resistance, but gives opponents this bonus to hit them.

Move: 30 (Swimming)

Description: A creature lived in the oceans of the planet Mon Cala. During the Battle of Dac City, two of these creatures were deployed by King Lee-Char, jumping above the water's surface and crashing back down, creating a large wave that destroyed Dac City. Similar incidents occurred planet-wide, resulting in the destruction of all surface cities, and forcing the Galactic Empire to rely on aerial landing platforms.
