Description: Hamilton was an individual who belonged to a pointy-eared humanoid species. Hamilton was present on the moon Bibin during its moon-wide evacuation in the aftermath of General Nawaam's firing of a kyber crystal cannon on Bibin's nearby gas giant Talos, circa 234 ABY. A citizen then led a search party that looked for individuals to evacuate. He presented the

Jedi Kwana with a log of those who were accounted for, including the holographic likeness of Hamilton, as well as their name, written in Aurebesh. After reviewing it, Kwana stated the evacuation could begin.

Around the time of the evacuation, Hamilton possessed long light blue hair, and pale skin. In the hologram reviewed by Kwana, the evacuee wore light brown clothes.
