Description: Cleaven was an individual who belonged to a pointy-eared humanoid species. Cleaven was present on the moon Bibin during its moon-wide evacuation in the aftermath of General Nawaam's firing of a kyber crystal cannon on Bibin's nearby gas giant Talos, circa 234 ABY. A citizen then led a search party that looked for individuals to evacuate. He presented the Jedi Kwana with a log of those who were accounted for, including the holographic likeness of Cleaven, as well as their name, written in Aurebesh. After reviewing it, Kwana stated the evacuation could begin.

Around the time of the evacuation, Cleaven possessed long light brown hair, and pale skin. In the

hologram reviewed by Kwana, the evacuee wore a brown tunic.
