Character Bio -

Sedriss was a human who studied the Dark Side of the Force under Emperor Palpatine, and was later appointed one of the reborn Emperor's Executors. He is a massive human with spiked hair, and he became the first Executor to learn of Palpatine's death on Byss. He then became the primary force behind restoring the Empire via Operation Shadow Hand. He gave the orders that launched the operation following the reborn Emperor's death. When Palpatine ordered him to detain Luke Skywalker on Ossus, Sedriss and Vill Goir both flew there in the Imperial Hunter Scourge One. Unfortunately for Sedriss, the ancient Jedi Master Ood Bnar captured him and reduced Sedriss to microscopic bits in an explosion of colliding Force energies.
