Weapons D6 / VerdanTech VT-4 Pistol

VerdanTech VT-4 Pistol

The VT-4 is the model the startlingly successful VT-5 was based off of. The VT-5
had it's load lightened and was fitted to have as little recoil as possible. The
VT-4 is a different animal. This 20-round pistol fires a 5.7mm bullet that will
defeat most body armor. After the publicicty of the VT-5, people who couldn't
get their hands on them, settled for the VT-4 instead.
