Weapons D6 / VerdanTech VT-6de Desert Eag

VerdanTech VT-6de "Desert Eagle"

The VT-6de Desert Eagle is a very powerful slugthrower. Using advanced slugthrower
technology the Deagle(as it's commonly referred too) can fire off large .50 slugs
at high velocity. The Deagle was created to punch through reinforced and blast
doors and the like and sold to legal enforcement agencies. However the effect it
had on people was such that it was deemed inhumane and was not only rejected but made illegal just about everywhere. VerdanTech stopped making them after nobody would legaly buy them but many were made, and msot fell into the hans of criminals such as hitmen and enforcers.
