

# Weapons D6 / Arbitron Tri-Barrel 5

## Multiple Barrel Firearm

The TB-5 is one of the more unique weapons in that it sports three barrels that all fire at nearly the same instant. They do not fire at the exact same time to prevent bullets from colliding, yet they all hit mili-seconds apart. This weapon is usually used when someone wants to take someone out with minimal shots. The weapon can be set to shoot a single barrel, two barrels, or all three at once.
