Arbitron 8mm C-15 "Impaler" Gauss Rifle

The C-15 "Impaler" is an automatic rifle that fires 8mm 'spikes' which are designed to pierce light armor on APC's or space suits. Its design also allows the user to switch it over to accommodate standard 8mm bullets. It fires either spikes or bullets out in five round controlled bursts. Created with space in mind it is ideal for defense in open space against suited up opponents where even a small puncture could spell certain death.
