VerdanTech VT-P1SG sniper Rifle

The VT-P1SG is one of the top of the line sniper rifles in the galaxy. Using high penetration subpressed rounds with an EMP propulsion enhancement system built around the barrel, this rifle can punch holes through some armoured speeders even. It has the best sound and flash supression system in the galaxyat the end of the barrel, while a somewhat boxy EMP propulsion enhancer sits behind that icnreasing the exit velocity of the rounds. A macroscope uses macroboniocular technology to find targets at great distances allowing the suer to hit with incredible accuracy.
