Weapons D6 / Verdant Technologies VT-94 M

VerdanTech VT-94 Machine Gun

The VT-94 is a top of the line, heavy assault weapon. Using a side mounted belt
feed ammo box, it can release a startling amount of ammunition in a short span of
time. If the firer is not careful they could empty all their ammunition in udner a
minute of firing. On constant fire the weapon can sweep out a four rounds every second.
The weapon, despite complaints, was bought by the Palvar Defense Force in bulk during it's trench war with Metacorp. The weapon made an icnredibly deadly trenchsweeper and when fired down into the trenches could sweep them clear of enemies.
