

Vibrostiletto

The vibrostiletto is a combat melee combat weapon usually carried by a wide variety of souls for personal defense across the galaxy. Like standard stilettos, the LaserHone vibrostiletto features a retractable blade that can be extended or retracted by a simple press of a button. Safety locks will lock the blade inside of the handle to prevent accidental release and injury to the user. LaserHone made vibroweapons have a greatly attractive feature: unlike many vibroweapons, LaserHones are silent (actually ultrasonic), lacking the high-pitched whine that is so common to weapons of this type.
