Sword illumination is a power that can be taught to any Jedi in 2 weeks time easily, for most people its Very Difficult, for DLOTS it's very easy, what it does is: on a normal sword it boosts the damage by 2D. With a DLOS using it on a Sith Sword it boosts damage on all scales by 4D. After power is on the sword glows and player may use hisher thrown weapons skill to shoot one powerful blast of 5D damage and of a diffuculty the same as a Heavy Blaster Pistol.
