

## Crysknife

The crysknife is the sacred weapon of the Fremen. It is taken from the mouth of the giant sandworms that dominate the Arrakeen desert. The blade is about 20 centimeters long and is a milky blue. Fremen crysknives are not allowed to be seen by any but those who are accepted into the Ichan Bedwine, the brotherhood of the Fremen. Those who have are either "cleansed" or killed. The knife is the only weapon the Fremen have been known to use in close combat. It is a powerful symbol of the might of the Fremen in Arrakis, and it has been decreed that none of the weapons be allowed to travel off-planet.
