## Merr-Sonn MSD-40 Heavy Disruptor Rifle

Soon after Merr-Sonn developed the MSD-36 disruptor pistol, Merr-Sonn was pressured to develop an even stronger energy weapon, capable of more damage. Like the MSD-36, the MSD-40 disruptor rifle works by breaking down objects at the molecular level. They have a short range and quickly drain their power cells, but almost guarantee lethal results.

Disruptors are outlawed almost everywhere and are typically seen only in the hands of terrorists and pirates.
