

Starships D6 / Mega Hauler

Mega Hauler

The Rendili Mega Hauler was and still is the galaxy's largest bulk transport vessel ever. It was designed specifically for transporting massive amounts of supplies for the Old Republic's ORD (Ordnance/Regional Depot) planets as well as for colonization purposes. Very few of the vessels remain in existence today, and those few that still exist are guarded heavily and many have been converted into heavy space carriers, makeshift battleships and even space stations.
