Starships D6 / Naboo C-Type Shuttle

Naboo C-Type Shuttle

The C-type is a sleek little shuttle. Built on Naboo and sold widely
off-world, most models lack the polished chrome finish of the J-Type
Royal Starship which was produced some 300 years later (though the
Monarch of Naboo did own a chrome C-type for some time).

Also, unlike the J-, the C- is armed: a retractable twin laser turret is seemlessly mounted atop the shuttle`s spine, offering a degree of defense to the shuttle`s crew and passengers. The cockpit (complete with polished transparisteel viewscreen which can be tinted to reduce glare) and passenger space are both extremely well furnished and comfortable.

The ship is driven by a pair of small engines concealed beneath the shuttle`s stubby winglets.

The most famous C-type was the "Kindred Spirit", flown by the Jedi twins Kalira and Ingcha Lornyiss...

Though first built 300 years prior to the Battle of Naboo, the ship is very durable (though spare parts are impossible to find outside of Theed), and a handful are still around by the time of the J-Type.

By the time of the Galactic Civil War, the ship had become somewhat of a collector`s piece, an icon of a past age...

Introduced: 300 years prior to Phantom Menace

Craft: Theed Palace Space Vessel Engineering Corps C-type Shuttle
Type: Luxury shuttle
Scale: Starfighter
Length: 28 meters
Skill: Space transports: Naboo C-type
Crew: 2
Crew Skill: Space transports 4D, starship gunnery 4D, starship shields 3D
Passengers: 4
Cargo Capacity: 3 metric tons
Consumables: 2 weeks

Cost: 80,000 credits (new)
Hyperdrive Multiplier: x1
Hyperdrive Backup: x12
Nav Computer: Yes
Maneuvrability: 1D
Space: 8
Atmosphere: 295; 850 kmh
Hull: 2D+2
Shields: 1D
Sensors:
- Passive: 20/0D
- Scan: 40/1D
- Search: 80/2D
- Focus: 4/2D+2

Weapons:
Twin Laser Cannon
- Fire Arc: Turret
- Crew: 1
- Skill: Starship Gunnery
- Fire Control: 2D
- Space Range: 1-3/12/25
- Atmosphere Range: 100-300/1.2/2.5 km
- Damage: 5D

Ronin's Notes:
Yep, it`s based on the ship from "Flight of the Navigator"! ;-)
Specifically in it`s tear-drop fast-speed configuration (not that the C-type can morph it`s hull).
