

Stock Flapjack

The Majestic is a slightly modified version of the Hypernautical FJ-760, known as the Flapjack. Made shortly before the beginning of the Galactic Civil War, the Flapjack was designed as a civilian freighter, comparable to the Corellian YT-series. The 760 model improved the previous designs' slow speed and poor atmospheric handling with two ion drives suspended by aerodynamic fins, one engine on each side. Added with a much more aesthetic sporty design, the 760 was a huge leap for Hypernautical.

Unfortunately, the Emperor's tight control on starship armament kept sales of the Flapjack low in most regions except the Outer Rim, where piracy was still common.
