

Aquatic Airspeeder

On a world where civilization extends both across the land and into the depths of oceans, a transport that can handle both of these environments is quite useful.

The Teraii Motor Corporation's SAS-Model XI aquatic airspeeder is one of the most common personal transports on Teraii. They frequent both the airways and the oceans of the planet, providing easy access to Teraii's submerged capitol city.

The SAS-Model XI is a sleek vehicle with a hatch located on either side of it to provide easy underwater docking and easy access on the surface. For atmospheric flight, the Model XI is equipped with a Nekkid Repulsors RPE-Gi repulsorlift engine which has an effective flight altitude of 47 kilometers. For underwater travel, it is equipped with retractable (retracted when in flight) turbo-maneuvering propellers.

Some Teraii citizens have installed various weapons systems onto their aquatic airspeeders ranging from torpedoes to blaster cannons. Possession of such items on Teraii is punishable by immediate exile off world and often results in the destruction of the item(s) in question.

Craft: Teraii Motor Corporation's SAS-Model XI Aquatic Airspeeder

Class: Airspeeder/Submarine

Size: Huge (6.8 Meters)

Passengers: 3

Cargo Capacity: 45 kilograms

Maximum Altitude: 47 km (20 km down in water)

Cost: 7,200 (new), 2,600 (used)

Atmospheric Speed (out of water): 600 km/h (10 squares/action)

Atmospheric Speed (under water): 200 km/h (2 squares/action)

Crew: 1 (Normal +2)

Initiative: +0 (-2 size, +2 crew)

Maneuver: +0 (-2 size, +2 crew)

Defense: 13* (-2 size, +5 armor)

Hull Points: 20 (DR 5)
