## Imperial AT-ST/A Assault Walker

A number of AT-ST walker variants have been produced over the years for any number of specialty missions that the Imperial Army may come across. Perhaps the most notable of these variants is the medium All Terrain Scout Transport Assault walkers (AT-ST/As).

The AT-ST/A is significantly larger than the standard AT-ST and is over ten meters tall. It carries a single chin-mounted heavy blaster cannon as the main weapon, replacing the the twin blaster cannon found on the standard AT-STs. The AT-ST/A also boasts reinforced leg braces as well as an upgraded gyro balance system.
