

Vehicles D6 / Kashan Industries HK-8 H

PDF Anti-tank Hunter Killer (2nd gen)

The Hunter Killer is an awesome assault speeder which primary use is as a tank destroyer. Its secondary use is as a bunker buster. It takes 2 men to fly the HK-8, the pilot performs maneuvers, and the gunner acquires target locks and operates weapons control. The gunner sits behind the pilot, back faced to him much like the Alliance's combat airspeeder. The HK-8 is improved from the HK-6 with stronger more durable body, and this unit was made solely by Kashan, replacing the slugthrower with a more powerful blaster.

Model: Kashan Industries HK-8 Hunter Killer

Type: Airspeeder Hunterkiller

Scale: Speeder

Skill: Repulsorlift Operation: Hunter Killer

Crew: 2

Crew Skill: Repulsorlift operation 4D, vehicle blasters 4D, Sensors 4D,
