The Earth Force PPG is one of the smallest hand held plasma weapons ever developed. The PPG, or Personal Plasma Gun, is only slightly larger than an average sized hold-out blaster but carries more ammo and packs more of a punch than other weapons of its size. Some security forces in the Inner Rim have begun arming themselves with the PPG, preferring it to heavy blaster pistols. It has found a wide acceptance on worlds where blasters are strictly restricted and hold-out blasters are the way on the streets.
