Quad Heavy Laser Cannon
Scale: Speeder
Fire Arc: Turret
Skill: Vehicle Blasters
Fire Control: 3D
Range: 6-100/200/400m
Damage: 7D+2

Description: The Aratech 112 Patrol Speeder is a cross between a standard speeder bike and a landspeeder. This fast armoured vehicle, is very manueverable and extremely well armed, and was used both for lightning fast strikes in battle, and to provide firepower to patrols in occupied territory.

The heavy armoured plates on the Patrol Speeder not only provide armour to the vehicle and its occupants, but also act as control surfaces at high speed, allowing the vehicle to near match the manueverability of the speeder bikes usually used by Scout Troopers.
