Weapons D6 / M6 Series Service Pistol

M6 Series Service Pistol

Model M6C

The M6C is a semi-automatic, recoil-operated, magazine-fed handgun. It most likely has DA, or double-action only trigger due to the fact that there is no external hammer. It fires the M228 12.7mmx40mm SAP-HP round (Semi-Armor Piercing, High Penetration) from a 12 round magazine. It has a considerably high rate of fire (6 rounds/sec or 360 rounds/min) with a limited maximum effective range, being able to hit a target accurately at only about 20 meters.

Model: M6C
