Weapons:*

*: The Scarab carries no weapon launchers, but it's cargo usually is comprised of various warheads and missiles to resupply fighters and bombers during a battle, this makes is a volatile and tempting target for enemy attack.

Description: The Scarab is very similar to our Centaur: We believe the Vasudans stole the design of this ship from us. It is used for in flight rearming of fighters and bombers. In longer engagements, these ships can mean the difference between victory and defeat. The major difference between this ship and the Centaur is that the Scarab is unmanned.
