Description:
The All Terrain Riot Control Transport (AT-RCT) was a walker in service with Darth Krayt's Galactic Empire. It was designed for use in cities and other areas with large populations.

The walker was open-topped, like the AT-RT model, but larger in scale.

An early version of the walker was in service in the Galactic Republic's Grand Army of the Republic. These walkers participated in the Battle of Kashyyyk in 19 BBY. The type saw increased use in the Fel Empire and Darth Krayt's Galactic Empire, over 150 years later.
