Character Bio (As of The Last Jedi) - ...Following the Resistance's evacuation of the base on D'Qar, Kylo Ren was summoned to Supreme Leader Snoke's throne room, located in the Mega-class Star

Dreadnought Supremacy. Kneeling before his master, Ren listened as Snoke loudly recalled the raw, untamed power that Ren possessed, abilities which had originally brought him to the dark sider's attention. Knowing the potential of the powerful Skywalker bloodline, Snoke revealed his belief that Ren could fulfill his grandfather's dark-side legacy. But in light of his apprentice's defeat at the hands of an untrained scavenger, who had never before wielded a lightsaber, Snoke retracted his faith in Ren's power and chastised him, calling him weak, sentimental, and a child hiding in a mask. Enraged, Ren rose to meet his master, but Snoke quickly suppressed the attack with a surge of lightning. Leaving the throne room, Ren smashed his helmet against the surrounding metal. He then ordered his ship to be readied, resuming his quest to eradicate the Resistance.

As Hux had anticipated through new tracking technology, the First Order armada emerged out of hyperspace to find the Resistance fleet unprepared and defenseless. The warship Supremacy led the charge, its powerful turbolasers showering the fleet with unyielding blasts. To complement the barrage, the Supremacy scrambled its short-distance fighters, with Ren spearheading the assault in his personal TIE Silencer. Covered by two wingmen, the dark apprentice intercepted the Resistance's MC85 Star Cruiser Raddus, capital ship of the fleet. Before the rebel pilots could launch a counterattack, however, Ren destroyed the Raddus hangar, leaving them unable to resist Ren's fighter wing.

With the Resistance flagship crippled, Ren turned his fighter to face the bridge of the craft, readying his rockets. At this moment he sensed his mother's presence aboard the Raddus, and Ren, hesitating, held his thumb over the trigger in a moment of intense doubt. After a moment, he surrendered to his second thoughts and abandoned the trigger control. His wingmen, however, had no such qualms-ever loyal to the First Order, they launched their rockets in Ren's place and destroyed the bridge. The detonation killed Admiral Ackbar and other acclaimed figures of the Resistance hierarchy, but Ren's mother survived, though barely, using the Force. Following this last offensive, Hux ordered the fighters back to the Supremacy, as the Resistance fleet had pulled out of the Supremacy's protective radius in the intervening time.

As the First Order pursued the Resistance fleet, Ren discovered he had a Force-bond with Rey, and once more prodded her for Luke Skywalker's location. During their first interaction, Rey fired her blaster at where she perceived Ren to be, only to damage one of the structures in the Jedi village where Skywalker resided. During another conversation, Ren told Rey his version of the events leading up to the destruction of Skywalker's Jedi temple: that he woke up to see Luke standing over him with his lightsaber drawn, ready to kill him. Though she refused to reveal Luke's location to him during her training, Rey offered him her hand one evening, causing Rey to sense the conflict within him. Simultaneously, Ren sensed that Rey's parents were merely simple junk traders and that she had no connection to the galactic story that was playing out. Eventually, once Rey arrived on the Supremacy in an attempt to redeem him, Kylo promptly took her into custody.

On the way to Snoke's throne room, Rey reminded Ren that there was still a chance to return to the light. Sure enough, as Snoke tortured her for Skywalker's whereabouts, Kylo killed his master by moving Rey's lightsaber with the Force to bisect him, tricking the Supreme Leader into believing he would strike Rey down. Snoke's Praetorian Guards immediately attacked Rey and Ren, who quickly fought them off. With the guards dead, Ren once again asked Rey to join him, revealing the truth about her parents in the

process. As on Starkiller Base, however, Rey refused and attempted to pull her lightsaber from him using the Force, causing Kylo to pull the saber back towards himself. As the weapon floated between them in a stalemate, the saber split in half, and the resulting Force shockwave knocked both of them unconscious as the Raddus split the Supremacy in half with a suicide hyperspace jump. When Hux arrived in the throne room, Rey had already escaped and Ren was unconscious. Hux prepared to kill his longtime rival, but Kylo awoke as Hux was readying his blaster, who put it away before Ren noticed. Ren falsely told Hux that Rey had murdered Snoke and his guards before claiming his master's mantle. Hux firmly refused to let Ren command his troops, prompting the Jedi killer to Force choke him into acknowledging Ren as Supreme Leader. With his supremacy assured, Ren ordered all forces to Crait to annihilate the remnants of the Resistance.

Looming overhead in his command shuttle, Ren oversaw the deployment of AT-ATs, AT-M6s, and AT-STs to the salty surface of Crait, gathered from what remained of the Supremacy. Marching forward, Ren positioned his troops opposite an abandoned rebel base which the Resistance had appropriated for its defense. When the First Order discovered a massive shield door impeding their advance into the enclosure, Ren further deployed a superlaser siege cannon—a sort of battering ram using miniaturized Death Star technology—to his advantage. In response, the Resistance launched a number of old ski speeders, an ultimately futile attempt to stop the cannon. While the Resistance attempted to halt the First Order's progress, Chewbacca and Rey joined the fray in the Millennium Falcon, and Kylo furiously sent every TIE fighter present to destroy his father's old ship.

Shortly after the First Order breached the base, Luke Skywalker appeared and Ren, in a futile attempt to eliminate his uncle, ordered all of his forces to fire at him. After Skywalker shrugged off the attack virtually unharmed, Ren ordered his command shuttle to be set down and confronted Skywalker personally. Kylo engaged his uncle in single combat, until he slashed through him with no effect. Confused, Ren poked Luke with his saber, revealing that Skywalker was not actually present for the battle and that he had been projecting himself through the Force from Ahch-To. Angered by the deception, Kylo and his forces scoured the now-empty base, but finding only Han's golden hanging dice, all Ren could do was bow in defeat as they vanished from his hand. As the Resistance evacuated, Ren saw Rey once more as she boarded the Millennium Falcon; no words were said as she closed the door on him.

GAME DESIGN NOTES:

Though little time passed between the end of *The Force Awakens* and the beginning of *The Last Jedi*, possibly around a week, there was still plenty of time to improve some of his abilities during this period, though not by much. Also, at the end of *The Force Awakens*, Ren had a major injury across his face, as well as in his lower back torso. These would have been 2 Wounded results on the Character Injury Chart and left him at -2D by the end of *The Force Awakens*, and possibly resulting in a Mortally Wounded status. By the beginning of *The Last Jedi* his wounds are in the process of being treated. The torso wound seems to have been mended and healed (remove -1D from his current health penalties). The facial wound seems to have been treated later, first using an artificial graft of some kind to seal the wound for the time being (allowing the Wound to work more like a Stun), then having an IT-S00.2 medical droid

properly mend and reconstruct his face later in the film (removing the other -1D from his health status).

Ren's Dodge and Lightsaber skills were improved +1 pip, but his other combat skills were not due to him not using them often. He smashes objects on occasion, but rarely uses his fists in combat when his lightsaber is available.

He's given the Persuasion skill to represent his conversations with Rey when their minds are linked. When they first begin conversing, he seems to attempt the use of Intimidation at first, but this does not work. Ren then tries to be more persuasive when Intimidation does not work, as his tone, tact and demeanor change during their conversations.

His skills involving starfighter use are improved +1 pip, to show he has a knack for it like Han Solo (and perhaps like Luke Skywalker as they are related), and probably takes the opportunity to use these skills whenever he gets the chance.

Ren's Force Skills have improved Control and Alter +1 pip each, but he showed no new Force Powers during The Last Jedi. His Force Points were advanced by +1 due to murdering Snoke, as well as his Dark Side Points advancing +1 due to taking over the First Order as Supreme Leader and seeming to become more evil in the process.

Character Points increased +5 due to general advancement.
