Description: Patitite Pattuna was a planet close to the world Balnab that was home to the diminutive Patitite species.

The planet itself, similar to Felucia and Raydonia, was completely overgrown with fauna and flora. Outside the atmosphere, it was purple in color.

The planet was ruled for many years by a tyrannical dictator named Hay-Zu. Because he was so feared and so powerful, he was given the nickname "the Big Hay-Zu".

At around 21 BBY, it was the site of a battle during the Clone Wars, ending with a Confederate victory. Hay-Zu was also killed, as he was crushed by R2-D2, giving praise to the Patitites and allowing them to start their own democracy.
