Technical: 2D

Equipped with:
Humanoid Body (two arms, 2 legs)
Two visual and two auditory sensors - human range
Visual Magnfication (microscopic)
Vocabulator speach / sound system

Move: 9
Size: 1.64 meters tall

Description: A Crime scene analysis droid was an analysis droid utilized by the Jedi Order to assist Jedi investigators when they were working on cases. Towards the end of the Galactic Republic, as the Dark side of the Force grew stronger, the abilities of the Jedi waned and they had to turn more and more to analysis droids to assist in solving crimes. Russo-ISC was a crime scene analysis droid assigned to the Jedi Temple and assisted Jedi Anakin Skywalker and Ahsoka Tano when they investigated the explosion in the Jedi Temple Docking Complex.
