Description: "Crosshair" was the nickname of a clone commando who served in the Grand Army of the Republic during the Clone Wars as a part of Clone Force 99.

Personality and traits
Crosshair received his nickname due to his incredible sharpshooting abilities. His armor was modified with a semi-circular cutout on the right upper edge of his helmet visor, to accommodate the scope of his 773 Firepuncher.

Crosshair was also known for his icy attitude and approach. He had a general disdain of "regs" (his short for "regulars" or "regular clone troopers"), and was always the first to express criticism, usually in a very cynical way. He had a very low sense of humor, which often put him at odds with his teammate Wrecker. Although the two could work together quite effectively, Crosshair and Wrecker often enaged in competitive quarrels about which one could wreck more battle droids in

the course of a mission.

Among his teammates, Crosshair had a noticable low level of stamina; at one point he was seen falling unconscious from turbulences during a rough landing approach.
