Equipment D6 / Translation visor

Model: Translation visor
Scale: Character
Cost: 1,200
Availability: 2

Description: A translation visor was a piece of electronic translator eyewear. This annotated reality device displayed the language of a target speaker and then translated it into Galactic Basic Aurebesh text.

The clone commando known as "Tech" wore a helmet with such visor. He was able to understand and relate the meaning of Poletecan speech to his Clone Force 99 teammates.
