Races D6 / Jablogian

Name: Jablogian
Attribute Dice: 12D

Dex: 2D/4D
Know: 2D/4D
Mech: 2D/4D
Perc: 2D/4D
Str: 2D/4D
Tech: 2D/4D

Special Abilities:

Sensitive Hearing: All hearing tests are one difficulty stage lower due to Jablogians large and sensitive ears.

Throat Pouch: Jablogians have a large throat pouch originally evolved to store food when they had too much to eat, but it can be used to store almost any hand sized item or weapon in secrecy.

Story Factors:

Gluttonous: Jablogian's come from a planet were food was scarce at various times of year, and the species needed to build up fat supplies to survive times of scarcity. Now they are part of the galactic community and food is no longer rare at times, they have become gluttonous, eating too much and running to fat. This attitude carries over to all areas of their lives and they will hoard resources and money.

Skin Colour: Red
Eye color: Green
Distinctions: Overweight torsos, Four-fingered hands, Pointed ears
Move: 9/11
Size: 1.4-1.7 meters tall

Description: Jablogians were a sentient species native to the planet of Nar Kanji. They were noted for their overweight torsos, blemished red skin, pointed ears and beady eyes. Azmorigan and Nazgorigan were members of that species.

Jablogians had deep red skin and green eyes. They also had large heads and short limbs in proportion to their bodies. They had pointy ears, four fingers on each hand, and a big chin with a throat pouch.
