Ooglith Cloaker

Type: Full-body-covering Ooglith biot

Effect: The Ooglith Cloaker is the Yuuzhan Vong equivilant of an environment suit. It is a matte black ooglith that typically covers the entire body. A variation of the cloaker was worn by Yuuzhan Vong slaves as protection during their work, but it did not cover their heads; a portion of the ooglith the Yuuzhan Vong referred to as the 'Hood' of the ooglith. A hooded Ooglith Cloaker, when paired with a Gnullith, would protect the wearer from hostile environments ranging from deep freezing water. For the vacuum of space, a variant known as a Vacuum Ooglith was used. The Vacuum Ooglith was rust red, and was paired with a Gnullith and a Lungworm to provide air for the Gnullith.

Special: Ooglith Biot: Oogliths are a jelly-like creature that conforms to every detail of the wearer's skin. An Ooglith biot bonds with the wearer by inserting tiny tendrils into every pore on the wearer's body; an extremely painful process. A character attempting to don an Ooglith biot must make a Difficult Stamina check in order to supress the pain of putting on or removing the Ooglith. If the Ooglith is torn from the wearer in some fashion, the character wearing it receives 2 damage (unresistable) as the tendrils are forcibly ripped out of the skin, and the character must make a Heroic Stamina check to resist succumbing to the pain.

Special: Yuuzhan Vong Biot: Yuuzhan Vong Biots, like themselves, are completely indetectable through the Force, and cannot be directly affected by it (inderect methods, such as throwing a rock at the biot, still work, but powers such as Lightsaber Combat, Detect Life or Telekinesis do not work).
