

Equipment D6 / Microwave fermentation

Model: Microwave fermentation device

Type: Drinks serving device

Cost: 2,000 Credits

Scale: Character

Game Notes: Add's +2D to all drinks preparation rolls.

Description: A microwave fermentation device used microwaves to rapidly ferment alcoholic beverages such as Deltron spice wine. It emitted microwaves as a by-product, which could be used to track the device by those who knew what they were looking for. It was a luxury item during the days of the Galactic Republic. One was used by Augustus Tryll.
