Description: Domina Tagge was a red-haired Force-sensitive Human female member of the House of Tagge during the last years of the Galactic Republic. She was the daughter of Sanya, and the younger sister of Cassio, Orman, Silas, and Ulric.

Domina was once a member of the Order of the Sacred Circle and became its leader. She wore the traditional yellow gown of the order, even after she left them. Tagge began an uneasy alliance with Darth Vader and showed romantic interest in the Sith Lord's son Luke Skywalker as part of a plot to avenge her brothers, Orman and Silas, whom Vader falsely claimed Skywalker murdered. During this time, Vader trained her in the use of the Force, including animal control.

In her later plans to destroy Skywalker, Domina fell prey to her own plotting and her men betrayed her for Imperial bounties.

Domina clashed with Leia Organa Solo and Lando Calrissian during the time when they were seeking a cure for the Crimson Forever disease that had infected Luke Skywalker. Leia recognized Domina on sight, and it was clear there was a long-standing mutual dislike between them. Leia and Lando trapped Domina on her ship with a group of bounty hunters she had hired, Bossk, IG-88, Dengar, and Zuckuss leaving them unable to leave the compartment they were in without being exposed to the virus themselves.

Eventually, Domina used the droid IG-88 to neutralize the disease, since he was mechanical and thus immune, and Skywalker was cured. Domina was granted safe passage, although Calrissian suggested to the bounty hunters that they might claim a bounty on Domina herself.
