- Visual and auditory sensors - human range
- Vocabulator
- Manipulator arms
- Harness Mounted Blaster Cannon (5D)

Move: 8
Size: 1.6 meters tall
Cost: 8,000

Description: Binoc droids were bipedal, humanoid droids with extended binocular photoreceptors. They were not originally combat models, probably being designed for technical work. However, Z-X3 modified at least two such droids on Kligson's Moon with chest blaster cannons similar to his own, for combat in his mutiny.
