Description: Kragan Gorr was a male Quarren pirate who operated during the New Republic Era. Gorr led the Warbird gang and secretly worked for the First Order.

Early in the Galactic Civil War, Kragan Gorr was part of a pirate crew led by the Lasat Grox. The gang was hired to steal ships for the Tech Masters inside the Kiax Nebula. One day, they were able to lure in the YT-1300 light freighter Millennium Falcon and siphon its power. Grox led a boarding party onto the freighter, consisting of him, Gorr, the Nephran Mirack, and the assassin droid PALLAS-Eleven. Grox told Gorr and Mirack to check for survivors while he went off with Eleven. They found no one on board the light freighter and impounded it on Trionak, intending to sell it.

By 34 ABY, Gorr had lost his left forearm and was a leader of his own pirate gang. Eventually, they were approached by the First Order. They wanted his gang to attack the refueling station Colossus for the them so its captain, Imanuel Doza, could give up power to the First Order for protection. The First Order gave them equipment to do this, and they began running "Triple Dark" attacks on the Colossus.
