Description: Glem was a male Rodian who worked at the loading docks on the Colossus refueling station on the Outer Rim planet of Castilon during the era of the New Republic. During a triple dark storm, he warned Kazuda Xiono of a possible pirate attack. Later, Teroj Kee locked Xiono in a crate and told Glem to dispose of it. Glem did so, and found an escaped Xiono clutching on a magnetic crane. During the First Order's occupation of the Colossus, Glem was confronted by stormtroopers about his identification.

*Personality and traits*

Glem was a male Rodian with black eyes, green skin, and a bulky figure. He had a gravel voice and liked to gamble for better shifts at his job at the Colossus loading docks. He showed no loyalty to the new employee Synara San and pointed the First Order in her direction when asked of it.

*Equipment*

Glem wore gray tunic with dark gray sleeves and trousers. When working at the loading docks, he wore a yellow vest and sandy brown colored undershirt and trousers.
