Type: Melee weapon
Scale: Character
Skill: Melee combat: vibro-ax
Cost: 500
Availability: 2, R
Difficulty: Moderate
Damage: STR+3D+1 (maximum: 7D)

Description: The BD-1 Cutter vibro-ax was a sophisticated melee weapon produced by SoroSuub. Longer than other axes, such as the primitive blades favored by the Gamorreans of Jabba Desilijic Tiure's retinue, the BD-1 had a hollow durasteel shaft to reduce weight, dampeners to reduce residual vibration from the vibrating head, and a quick-release switch that allowed the rapid replacement of the blade. The BD-1 was used by Weequay skiff guards working for Jabba. One was used to prod Luke Skywalker into the mouth of the Great Pit of Carkoon.
