Vehicles D6 / Akurian Power ski

Name: Akurian Power ski
Scale: Speeder
Length: 2m
Skill: Repulsorlift operation: Power Ski
Crew: 1
Passengers: 0
Cargo Capacity: 2kg
Cover: None
Altitude Range: Ground level-5m
Cost: (New) 4,000 credits; (Used) 1,000 credits
Maneuverability: 1D
Move: 33; 100kmh
Body Strength: 1D
Weapons:

Description: Power skis were small repulsorcraft used primarily on the ice planet Akuria II. They could not match the speed of the much larger snow flyers, and were decidedly less powerful, not sporting weapons or any type of armor to keep the pilot from harm. A set of power skis were hidden on Colonel Odan's War Sled in the event of an emergency.
