Planets D6 / Challon

Name: Challon
Region: Core Worlds
System: Challon system
Grid coordinates: L-9
Trade routes: Shawken Spur
Class: Terrestrial
Primary terrain: Forests
Immigrated species: Humans
Primary language(s): Galactic Basic Standard

Description: Challon was a planet in the Core Worlds that remained neutral during the Galactic Civil War. While on Challon, Leia Organa tried to convince local Governor Tchai to support the Rebel Alliance. Organa was forced to kill Giles Durane, her "weapons master," in self-defense.

The people of Challon often referred to inhabitants of planets in the Outer Rim Territories derisively as "Rimworlders."
