Starships D6 / Millenium Astro Engineering M

Name: Millenium Astro Engineering Millennium Hawk
Manufacturer: Millennium Astro-Engineering
Type: Small Space Transport
Scale: Starfighter
Length: 21.5 meters
Skill: Space Transports - Millennium Hawk
Crew: 1
Passengers: 2
Crew Skill: Space Transports 4D+1, Starship Gunnery 4D
Cost: 280,000 credits (new)
Consumables: 5 Days
Cargo Capacity: 22 Tonnes
Hyperdrive Multiplier: x1
Hyperdrive Backup: No
Nav Computer: No
Space: 11
Atmosphere: 450; 1350kmh
Maneuverability: 2D
Hull: 3D
Sensors:
- Passive: 25/0D
- Scan: 45/1D
- Search: 65/2D
- Focus: 3/3D

Weapons:
- Dorsal Laser Cannon Turret
  - Fire Arc: Turret
  - Fire Control: 2D
  - Space: 1-3/12/25
  - Atmosphere Range: 100-300/1.2/2.5km
  - Damage: 4D

Description: The Millennium Hawk was a model of starship manufactured by Millennium Astro-Engineering. They were popular among criminals in the galaxy's Outer Rim Territories.

A small, spear-headed starship, the Millennium Hawk had a large central power core flanked by a pair of sublight drives. It was a basic model with a proven record of performance and reliability.

Manufactured by Millennium Astro-Engineering at their plant on the planet Tharkos, the Millennium Hawk was popular among smugglers and criminals that hounded the Galactic Empire during the early years of its expansion across the galaxy's Outer Rim Territories. These privateers flew specially modified Hawks that could outperform most regulation Imperial fighters, including the TIE/LN starfighter. Millennium's next development was the Millennium fighter, a larger and slower

craft capable of carrying greater paloads.
