Vehicles D6 / Kuat-Entralla Engineering Urba

Name: Kuat-Entralla Engineering Urban Assault Triped Transport (UA-TT)
Scale: Walker
Length: 10.33 meters
Height/depth: 6.52 meters
Skill: Walker Operation; UA-YY
Crew: 1
Cargo Capacity: 120 kilograms
Cover: Full
Maneuverability: 1D
Move: 30, 90 kmh
Body Strength: 4D
Weapons:

- Medium Laser Cannon
  - Fire Arc: Front
  - Scale: Speeder
  - Skill: Vehicle Blasters
  - Fire Control: 1D
  - Range: 75-400/750/1.5km
  - Damage: 6D
- Grasper Arm *
  - Fire Arc: Front
  - Scale: Walker
  - Skill: Vehicle Blasters
  - Fire Control: 2D
  - Range: 1
  - Damage: 6D

*: The Grasper Arm may also be deployed as a stabilising leg, which allows the main weapon to be fired on a more powerful level, but does mean that the walker cannot move while it is deployed. Therefore the walker cannot dodge attacks when the leg is deployed, but it's weapon fires at Walker Scale rather than Speeder Scale.

Description: The Urban Assault Triped Transport, or UA-TT, was a First Order walker used for pacification operations.

The UA-TT could deploy its central limb for stabilized firing. Such designs dates back to the Clone Wars-era AT-AP walkers used by the Galatic Republic. In order to use heavy machinery in an urban area, the First Order deploys UA-TT walkers as opposed to the larger, heavier AT-M6 walkers. This is done so the city in question is not destroyed during occupation.

In 35 ABY during the First Order–Resistance war at least one was deployed to Kijimi.
