Equipment: Electroprod (Str+1D Physical damage/5D stun energy damage), Sonn-Blas Corporation SE-44C blaster pistol, First Order stormtrooper armor (+1D vs Energy Damage, +2D vs Physcial Damage, -0D+2 Dexterity)

Description: HF-3311 was a human female from Gannaria who served as a electroprod trooper in the First Order during its war against the Resistance. In 35 ABY, she aided the Knights of Ren in capturing the Wookiee Chewbacca on the planet Pasaana and the remained with him while he was transported to the Star Destroyer Steadfast.

HFF-3311 was the designation of a human female who was born on Gannaria in around 10 ABY. She served in the First Order's Stormtrooper Corps as an electroprod trooper during the war against the Resistance. In 35 ABY, she was amongst a division of First Order forces deployed on

the planet Pasaana after Supreme Leader Kylo Ren learned that the scavenger Rey was on a mission there.

When the Knights of Ren Ap'lek and Kuruk spotted the Wookiee Chewbacca alone in the desert on Pasaana, HF-3311 was amongst the stormtroopers who aided them in capturing him. After a stormtrooper officer finished searching through the Wookiee's possessions, HF-3311 used her electroprod to force Chewbacca up a ramp into a AAL-1971/9.1 Troop Transport. The transport then carried them up to the Resurgent-class Star Destroyer Steadfast where General Armitage Hux presented the prisoner to Allegiant General Enric Pryde. After the Wookiee roared at Hux, Pryde ordered HF-3311 and the other troopers present to take the prisoner to interrogation six. Chewbacca later escaped from the Star Destroyer, after which it was destroyed at the Battle of Exegol.

Personality and traits
HF-3311 stood 1.8 meters tall.

Equipment
HF-3311 wore white stormtrooper armor and carried a riot control electroprod.
