Description: Bellava Parnadee was a human female who served as a general in the armed forces of the First Order. As the senior ground commander of the First Order military, she sat on Supreme Leader Kylo Ren's Supreme Council and in 35 ABY attended a session on board the Resurgent-class Star Destroyer Steadfast.

During the meeting, Parnadee complemented the Supreme Leader's newly repaired mask and suggested that they increase recruitment of personnel when he brought up the Sith fleet that would soon be bolstering the First Order's forces.

Bellava Parnadee was a human female who held the rank of general with in the First Order and served as its senior ground commander during their war with the Resistance. Once much of the galaxy had fallen under First Order control following the Hosnian Cataclysm, Parnadee focused on the occupation of contested worlds and directed ground forces on Torost, Odynnia Gavo and the planet Kijimi. She operated out of Ren's command vessel, the Resurgent-class Star Destroyer Steadfast, but had standing quarters on every vessel in the First Order fleet in case she needed to personally oversee a campaign.

Parnadee sat upon the Supreme Council, a body within the First Order High Command of the highest ranking military officers and their aides formed by Supreme Leader Kylo Ren to plan the future of the First Order. In 35 ABY, she attended a meeting of the council on board the Steadfast in which Ren presented the head of the Resistance sympathizer Boolio and declared that there was a mole within the First Order. When the Supreme Leader accused General Armitage Hux of feeling uneasy about a newly repaired mask Ren was wearing, Parnadee quickly declared that she personally liked the look.

She then suggested that the First Order should increase recruitment of new personnel from occupied worlds when Ren began discussing the Sith fleet that would soon bolster their ranks. When General Domaric Quinn questioned the use of the fleet, Ren used the Force to slam him into the ceiling then ordered Parnadee and the rest of the council to crush any remaining resistance to their rule while he and his Knights of Ren hunted down the scavenger Rey.

Personality and traits
Bellava Parnadee was a female human with black hair, dark skin and brown eyes. She was an avid student of history and maintained an extensive hololibrary containing detailed analysis of the major engagements of the Clone Wars and Galactic Civil War. Her presence encouraged her troops, as they either wished to make her proud or avoid her well-documented ire.

Parnadee knew when and how to give opinions that favored her among her superiors: when she realized that Ren singled out Hux for his unease at his appearance, Parnadee stated that she liked Ren's mask.

Equipment
While at the meeting of the Supreme Council, Parnadee wore a freshly droid-ironed black First Order uniform with a black belt and gloves. On her left arm she bore the double-banded rank insignia of a general.
